

As a resident of Urbandale, IA (Des Moines metro area) I am a loyal listener of K-LOVE radio (FM 90.5). This national radio program serves me in a way that local radio stations cannot as the genre is not the same, or the one local channel that does offer christian music is not transmitted clearly. K-LOVE is the one station I am dependent on to receive the music I need and want to listen to. If this stations were removed it would be a disservice to my community. We will not have the outreach we need, nor will we have the connection to the christian broadcasters, musicians and ministers that we need. I believe this K-LOVE provides a dedicated ministry to the people in all walks a life, the music is the best. It is full of encouragement, it is full of positive music and discussion and it does not contain the negativity of the other public radio stations, and does not contain music or discussion that I would not want my children to hear or that I would have to continue to flip channels because of the theme of music/discussion. Please do not remove this radio station from my community!! It's the only one we've got!!!!
